

# Petroleum Engineering Knowledge Sharing

## TRAINING COURSES

### Nafta Tutor

**Nafta Tutor** are on-line distance training courses in various topics of petroleum engineering, including video-lectures, electronic textbooks, practical exercises with on-line simulators, on-line tests, on-line live workshops and face-to-face certification sessions.

## TRAINING SIMULATOR

### PetroCup

**PetroCup** is an on-line interactive training and testing facility in field development planning and well & reservoir management. It simulates the typical well and reservoir behaviour so that a professional asset team can go through many years of field production in just few days or a few weeks and learn a lot of practical lessons in key petroleum disciplines including the asset management.

## DISCUSSION CLUB

### DNC

**Discussion Nafta Club** is a discussions workshop with 1 to 6 days duration and 15-20 people attendance with a tight program addressing a Customer challenges. Nafta College creates and facilitates a balanced discussion program and attracts third-party specialists with a pertinent competence.

## DISCUSSION FORUM

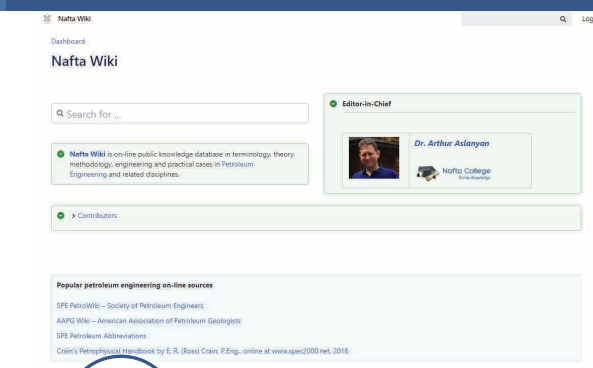

### DECOM

Petroleum Discussion Forum **DECOM** is the annual open discussion platform on oil and gas field development planning, production analysis, data surveillance and asset management. The Forum sets focus on advanced technologies, industrial trends, potential solutions and new challenges. The Forum usually gathers hundreds of industry managers and specialists in a big hall and split into sessions owned and facilitated by leading petroleum companies, technology centers, servicing companies and academic organizations.

## ENCYCLOPEDIA

### Nafta.Wiki

On-line public knowledge database in terminology, theory, methodology, engineering and practical cases in Petroleum Engineering and related disciplines.
